Learning Journeys Shared

I was recommended Germandrishty by a friend who has already done her A1 from here and she had nothing but good things to say about her experience. So I joined the classes without giving it much thought, initially everything was really tough and I did struggle but eventually I got the hold of things and everything was good. I appreciate my teacher Khushi, because she is not only good at what she does but also has a patience of a saint. You can ask her your doubts any number of times and she will explain it with the same enthusiasm every time. Why I would recommend Germandrishty to everyone is because no one is just trying to finish the syllabus, but instead is focused on making sure that everyone is learning. We have regular practice sessions, tests, questions and answers to help our reading, listening and speaking skills.

-Anubhuti Chandel (Graphic designer), A1

It all started with the need for basic German understanding, as living here in Germany requires German in many places for day to day works. Got reference of German Drishty from one of my friends and attended the webinar hosted by Jitendra sir. It was very good insight and immediately planned for the enrollment. The entire A1 classes were fun & energetic. My understanding for basic German improved multifold and now I am able to understand some conversations and can read important notices and messages. Special appreciation to Jitendra Sir for making the class interesting & fun. Looking forward for attending other courses.

Thanks German Drishty for such initiatives.
